### **Announcement!**

We are pleased to announce that Mr. J. J. Broomall of Eagle Rock, Calif., has selected us as his representative and will in the future devote his time originating exclusively for us. Mr. Broomall is the Dean of all dahlia growers, and all lovers of this wonderful flower know, or should know, his record of creating some of the best the world has seen.

### **GENERAL INFORMATION**

**ORDER EARLY**—Root shipments are made after February 1. Plants are ready about April 1.

**WE GUARANTEE** that all roots are sent true to name and in good growing condition.

**TERMS**—Cash with order, please. On retail orders for California delivery, 2½% should be added to the amount to comply with Sales Tax Law.

**FULL DIRECTIONS** for the care of your dahlia garden are included with each shipment.

### **EXPLANATION OF TYPES**

(According to the American Dahlia Society classification.)

**INFORMAL DECORATIVE (I. D.)**—Double flowers, full to the center, usually with long, twisted petals, and often irregular in arrangement.

**FORMAL DECORATIVE (F. D.)**—Double flowers, full to the center, usually with broad, flat petals, often rounded at the tips, and regular in arrangement.

**CACTUS (C.)**—Double flowers, full to the center, with long, narrow, pointed petals, incurved, recurved or straight, but rolled more than half their length.

**SEMI-CACTUS (S. C.)**—Double flowers, full to the center, with coarse, twisted petals, usually somewhat incurved, and rolled ordinarily less than half their length.

# OUR INTRODUCTIONS FOR 1935

## ANALEE McCLURE—(Inf. Dec. to Semi-Cactus) by Broomall

A beautiful WHITE. Flowers average 10 to 12 inches, with good depth. Stem stiff and cane-like. The flowers facing, never droops or hangs its head. You will agree with Mr. Broomall that it is his finest origination to date, and the best white he has ever seen. A good keeper when cut.

Roots \$10.00      Plants \$5.00

## BING CROSBY (Inf. Dec.)

Color—GOLDEN YELLOW penciled with CARMINE. A seedling of La Fiesta, carrying the same general tones but the colors are more pronounced. The flower is larger and much deeper, with a high center, the stem is perfect, carrying the bloom erect and facing you. The foliage is insect resistant, and a brilliant shade of green. A glorified LA FIESTA with none of the faults of the parent. ACHIEVEMENT MEDAL, Winner at the Los Angeles Show 1934.

Roots \$10.00      Plants \$5.00

## RUTH ELDER (Inf. Dec.) by Broomall

A beautiful light JASPER RED and CORAL. Blooms average 11 inches with good depth. Has very heavy dark foliage, that is full insect-resistant, an ideal flower for the home garden, very prolific bloomer, giving a blaze of color throughout the entire season.

Roots \$5.00      Plants \$2.50

## SHIRLEY TEMPLE (Dec. Ball)

Clear, glistening yellow with blooms that average 4 inches on perfect stems. A wonderful keeper and a great favorite with the florist.

Roots \$5.00      Plants \$2.50

## DAHLIA PLANTS

are sprouts or cuttings taken from stock of named varieties, started early in the greenhouse, rooted in sand benches, potted and grown inside until established, then moved to cold frames for hardening off, ready for shipping and field planting.

If you do not grow your dahlias from green plants, we suggest that you give them a trial, for, when properly grown from healthy stock and given the care that any plant requires, they will give you better blooms and will make a nice clump of roots for future plantings. However, they must be cultivated and watered, and, if insects bother, sprayed with an insecticide.

Dahlia Green Plants are ready for shipment after April 1st, and will bloom at about the same time as roots that have been planted three weeks earlier. The price of plants is one-half or less than the price of roots of the same variety. We recommend their use very highly, especially for our local conditions in Southern California.

## “CALIFORNIA’S FINEST DAHLIA SEED”

California-grown seed from the best and largest varieties. Our seed garden contained over twenty-five Honor Roll Dahlias, and grown under ideal conditions. There is no finer seed produced. Such seed is never plentiful. The better the seed you plant, the better your opportunity to originate a new variety. We can supply this seed in named varieties or in mixture.
